HĀNA KŪ

Like-Minded Connections

HĀNA
KŪ
BY ALA KUKUI

Hāna Kū encapsulates the fundamental values of our native practitioners who are traditional hunters/fishermen/farmers/gatherers of Hāna. Experts of this land and sea, they know our organic food sources, when and how to gather and maintain. The generational passing on of traditional place-based knowledge is key to the reciprocal relationship between kanaka and ʻāina that allows both to thrive.

What better way to highlight these practitioners than to partner them with masters of the kitchen. The hāna of both kanaka practitioner and master chef speak to the high level of passion, respect and commitment that each shares for his practice. When brought together in the spirit of sharing, only one thing happens - magic.
