

NOENOE UA KEA

the light, misty rain native to Hāna

NOENOE UA KEA is the name of the light, misty rain that makes supple the fallen lauhala. It floats in on the Māluualua breeze and clings to Pu'u 'o Ka'uiki, regenerating the waters of Kapueokahi. Through our Noenoe program (Noenoe Nights + Noenoe Tita's), we acknowledge the beauty, grace and regenerative nature of wāhine as reflections of our environment and we create the space needed to mālama this precious resource.
